

Great Spring Horticultural Show

The Malta Horticultural Society held its annual spring horticultural show at San Anton Gardens, Attard, over the weekend. The show featured flower arrangements, cut flowers, pot plants, fruit and vegetables.

A section was reserved for schoolchildren and 200 classes or individual school children took part in a competition for the best entries.

From our school, the group of students doing Gardening for Mid-Day Break activity took part with the help of Mrs Lorraine Gatt. They produced an amazing display consisting of a container of fresh mixed vegetables.

Leah Borg Millo in Year 4 Bluebells built a Veggie Farm and came first in her category. She won a trophy and will definitely always remember this fantastic experience.

Two other students from Year 3 (Hannah Gatt and Katrina Ferris) and a Year 2 student (Thea Gatt), took part in the Best Model of a Garden and in the Bottle Garden Competition. Their entry for the Best Model of a Garden came second and they were awarded a certificate of merit for the Bottle Garden Competition. Well done to Hannah, Katrina and Thea!

Another student in Year 4 (Theresa Grima) came second with her Best Poster promoting the preservation of local flora. Well done to you too Theresa.

Last weekend, San Anton was a festival of flowers, plants, fruit, vegetables and crafts. Seeing students from the Convent of the Sacred Heart Junior School participating in the children's competition was a novelty. It was another learning experience for these girls. Having girls from our school whose entry was awarded a prize made it extra special for us this year.
